

SKIRTING BOARD CATALOGUE

NEW COLLECTION 2018

At VOX we believe that true freedom starts at home, and the way we live significantly affects our lives.

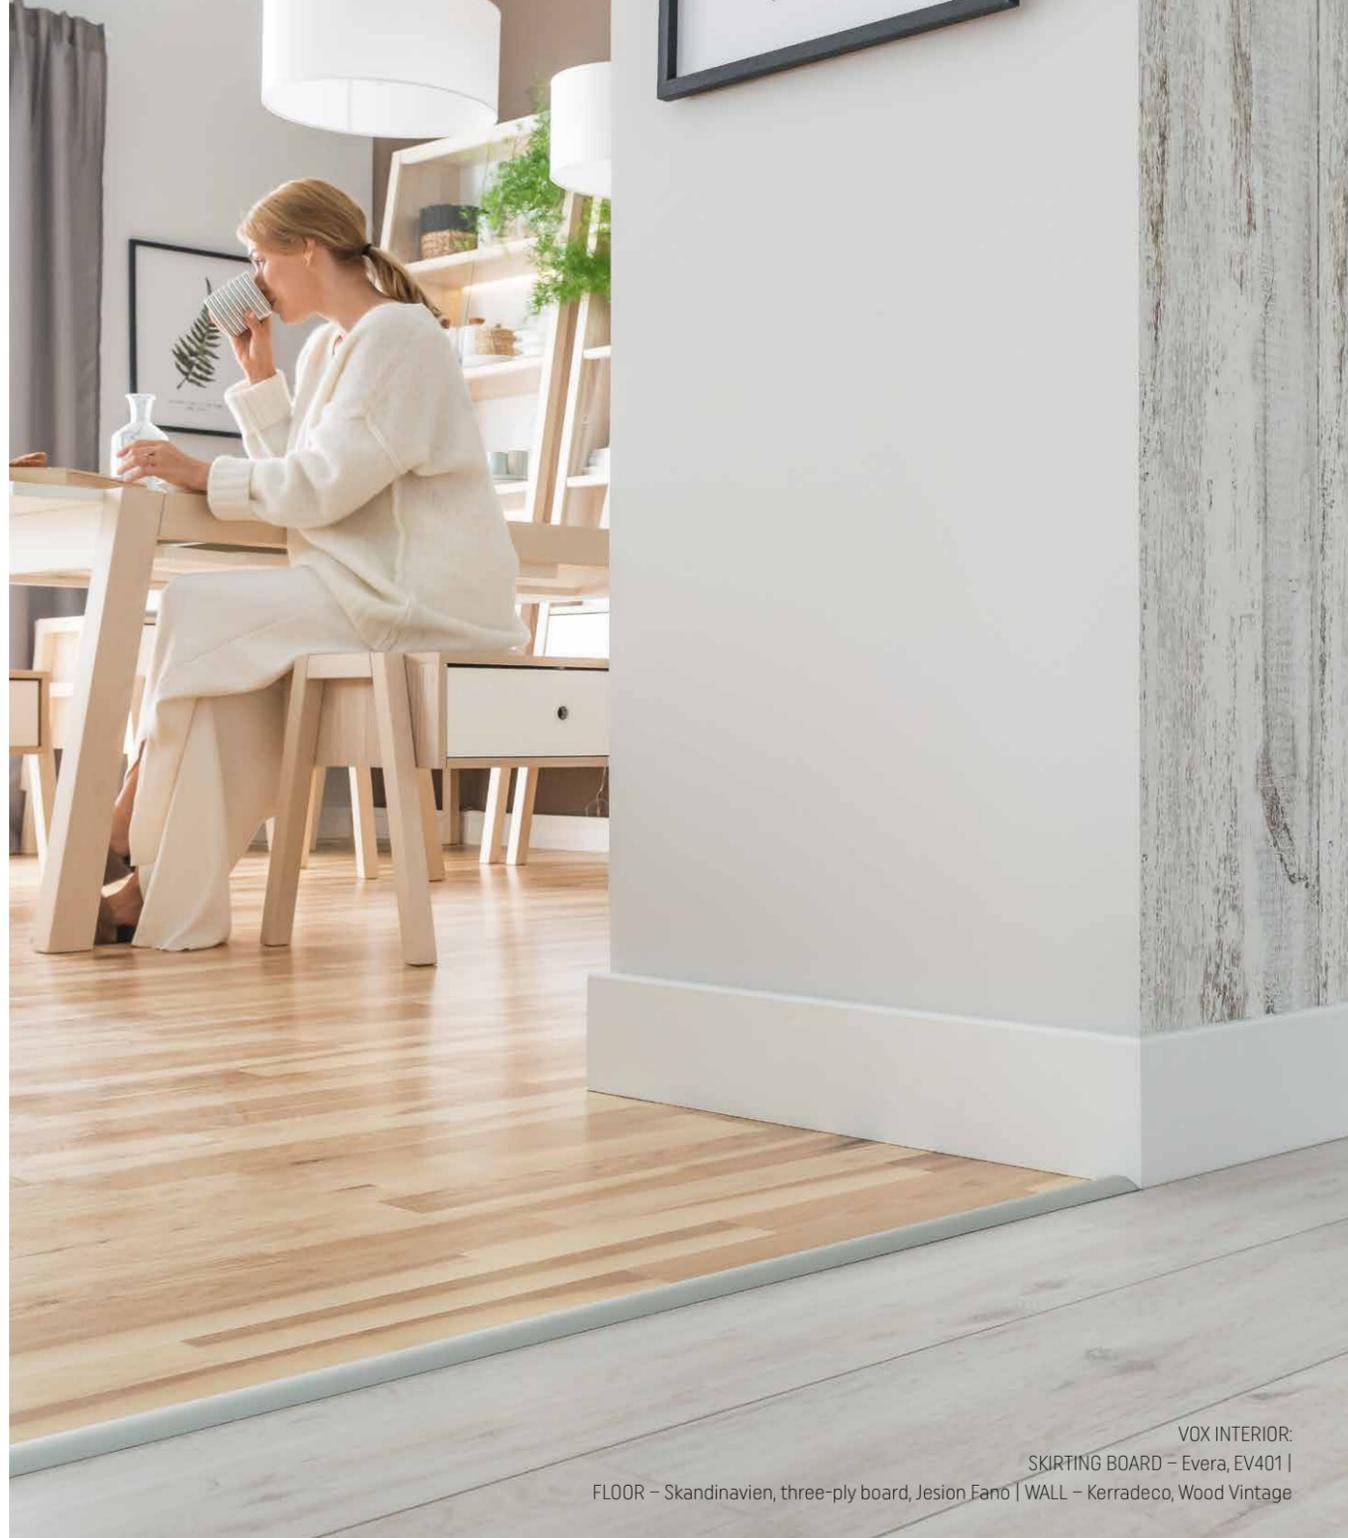

The VOX brand focuses its attention on the person, its needs and values, which is why we create our products and services, utilizing the knowledge from various humanistic disciplines. Thanks to the cooperation with psychologists, sociologists or anthropologists, we are able to design solutions, which support our customers in developing interiors, which provide freedom and enable fulfilling life passions.

When designing interior fit-out elements, we always think of them as a functional and coherent whole. Our skirting boards are also developed this way. We devote a lot of attention to the skirting boards, take care of every detail, because we know that they are a significant piece, emphasizing the nature of each room.

WHITE-UP! WHITE DOES ITS JOB

There are details, which change everything. A skirting board is an often underrated element of the interior, yet it can determine its character. This is why, in line with the newest trends, we designed the White-Up! collection of skirting boards.

Our collection includes three lines of white skirting boards, with two of them expanded with profiles in shades of grey. These are Esumpo, Evera and Estilo. Espumo, manufactured in the Kerracore technology is light-weight, impact resistant and is suitable for painting. The main advantage of an Evera MDF skirting board is the quick assembly using an adhesive, and the Estilo range is distinguished by the combination of the excellent design with a functional MDF structure.

VOX INTERIOR:
SKIRTING BOARD – Evera, EV401 |
FLOOR – Skandinavien, three-ply board, Jesion Fano | WALL – Kerradeco, Wood Vintage

HARMONY AND CONTRAST

The interiors can be designed in many patterns. Fit-out of a room may be based on the principle of colouristic and stylistic coherence or based on contrast. White skirting boards are able to subtly blend into the background, mainly emphasizing their shape or distinguish themselves as a counterpoint.

DEDICATED ACCESSORIES

All lines in the White-Up! collection have own finishing accessories. A universal MDF block can be used as a corner or skirting board ending. A skirting board can be finished using self-adhesive cover caps, ideally fitting the shapes and colours of all models in our collection.

VERY TRENDY

White is hip. It is noble, subtle and optically enlarges the interior. It provides numerous design possibilities. White skirting boards add spatial lightness and emphasize it well.

VOX INTERIOR:
SKIRTING BOARD – Espumo, ESP101 | FLOOR – VOX panels, Querra collection, Sand Oak

ESPUMO

1

ESPUMO SKIRTING BOARD. DIFFERENT THAN OTHERS

- LIGHT-WEIGHT AND STRONG

The Espumo skirting board is manufactured in the Kerracore technology. It has a light-weight foamed inner layer and a hard outer layer, which ensures impact and moisture resistance. It can be used as finishing for ceramic tiles.

- PAINT IF YOU WANT

Espumo is the first of VOX skirting boards suitable for painting. Individually selected colour will help blending into the background or make it strongly distinguished.

EVERA

2

EVERA SKIRTING BOARD. THE CHOICE IS YOURS

– WIDE RANGE

The family of Evera skirting boards includes a dozen or so shapes and stylistic forms. Classically beautiful or simply modern - there is something for everyone.

– EYE-CATCHING

Made of MDF, it looks great thanks to a smooth surface.

– EASE OF INSTALLATION

The Evera skirting board is glued directly to the wall. The installation is quick, single-handed, without the need for special skills and professional tools.

Cover caps are available for all shapes and colours of Evera skirting boards

ESTILO

3

ESTILO SKIRTING BOARD. FAIR AND SMART

– VERSATILE

As is the case with all VOX skirting boards, the Estilo range is available in various shapes and heights. It can be installed by cutting at an angle of 45° or using a universal block in the corners - the choice is yours.

– PRACTICAL

Estilo proves that design means well-thought solutions. The structure of the skirting board enables electrical cables to be hidden inside. Fastening with a pin for seamless installation provides skirting board stability.

FUNCTIONALITY OF GREAT DESIGN

VOX HANDBOOK

Every detail is important. This is why our offer includes accessories, which streamline the installation of skirting boards and provide them with the final touch.

UNIVERSAL MDF BLOCK

UNIVERSAL BLOCK AS A SKIRTING ENDING

It can be used as a skirting board ending or a connector between skirting boards made of MDF. The block is fastened to the board with an assembly glue.

UNIVERSAL BLOCK AS A CORNER

If you would like to avoid cutting skirting boards at an angle of 45°, insert a block into the corner, previously cutting it from the bottom to the height of the skirting board.

SELF-ADHESIVE COVER CAPS

SIMPLE METHOD TO FINISH

The cap acts as a self-adhesive sticker, which enables smart finishing of a skirting board and covers its structural elements.

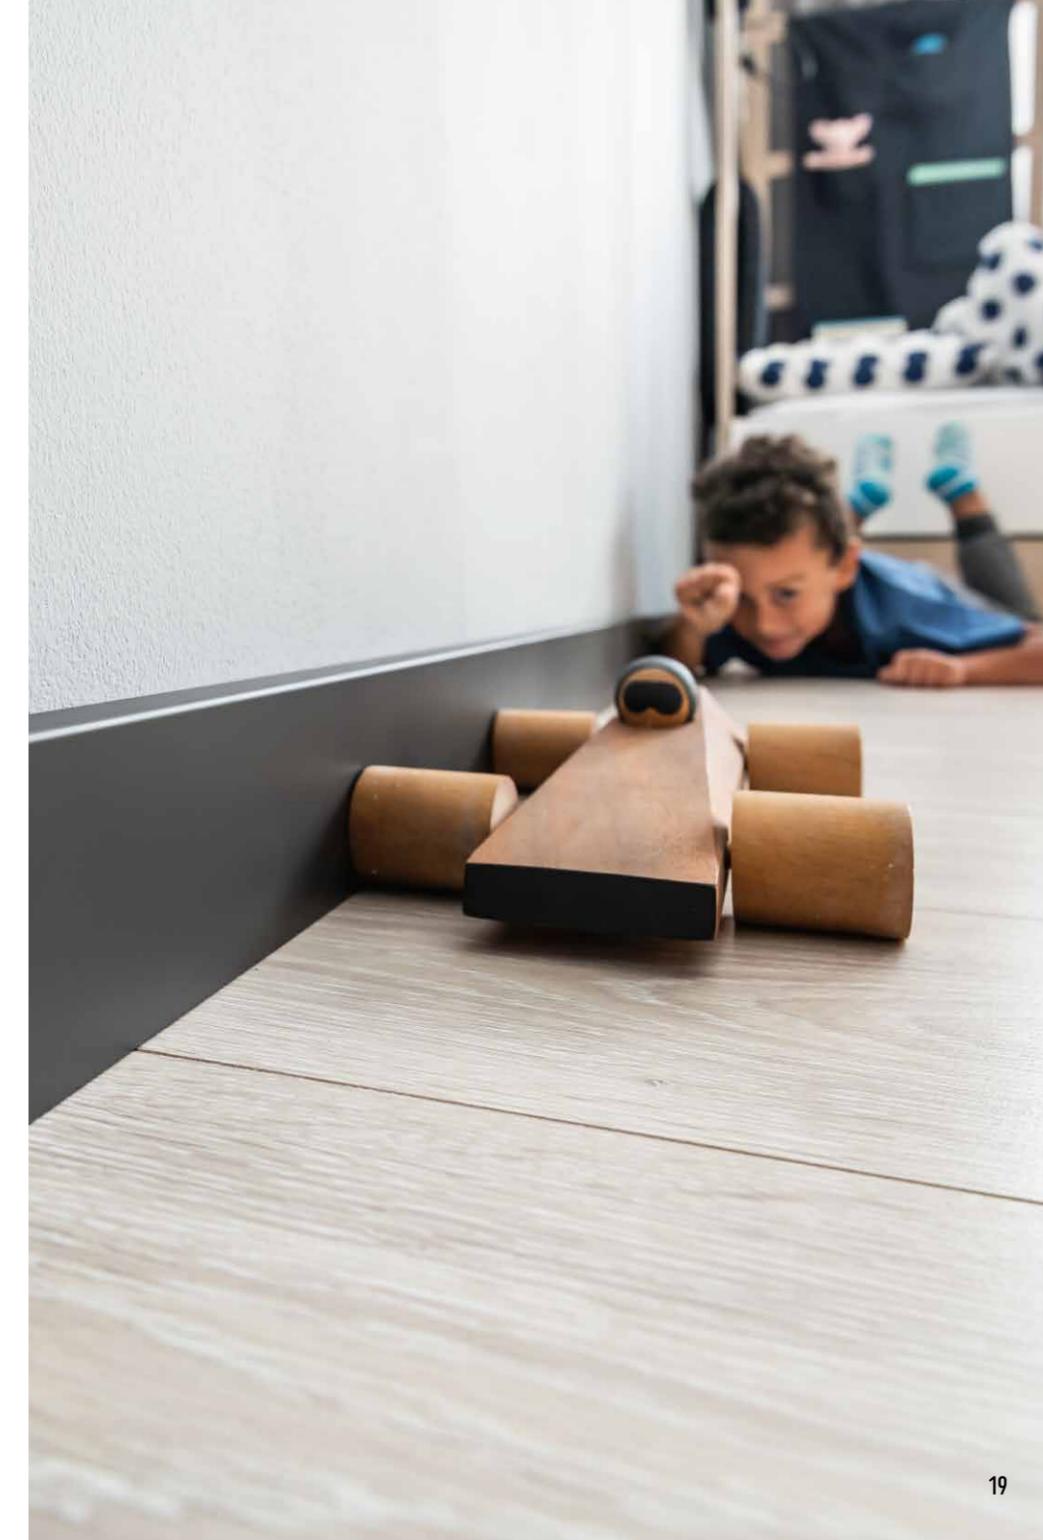

IDEAL SKIRTING BOARD ENDING

The self-adhesive cover cap ideally fits the shape and colour of each skirting model in the White-Up! collection
