Flooring Collection 25+

Accessories

Matched from start to finish. *EGGER flooring accessories*

Of course, when installing a floor, the most important thing is the floor itself. But the result is only really perfect with the right accessories. Discover underlay mats, skirting boards, corner and connecting elements, as well as floor profiles that are perfectly matched to our flooring products.

Underlay mats

For long-lasting enjoyment of the floor, a suitable underlay mat is essential. It levels out unevenness, absorbs noise and protects the floor from rising humidity. It also improves walking comfort and increases durability. Available as a resilient polyurethane-mineral mixture or XPS-based folding mat with or without vapour barrier.

» to.egger.link/underlays

Skirtings

MDF skirting boards create an attractive transition between the floor and wall, protect against knocks and conceal unevenness. Our easy-care skirting boards are available in various colours and profile shapes. From discreet to stylish, our extensive range even includes matching corner and connecting elements.

Our underlay mats ensure
a stable floor

High-quality underlays from EGGER protect the floor covering and ensure long-lasting enjoyment. They improve walking comfort, reliably reduce walking and impact noise, level out any unevenness in the subfloor and can be removed without leaving any residue.

Which EGGER underlay
is the right one for you?

Silenzio Easy

The XPS-based Silenzio Easy sound-proofing underlay for click laminate is suitable for floating installation on non-mineral subfloor constructions. It impresses with its impact and room noise reduction and offers lasting protection and stability.

Format: Folding mat 12,000 × 1,250 × 2 mm; 15 m²

Silenzio Easy SD

The XPS-based Silenzio Easy SD sound-proofing underlay with integrated vapour barrier film effectively protects the floor covering from rising humidity and is ideal for the floating installation of laminate flooring on mineral subfloors such as screed or concrete. Any unevenness in the subfloor can be levelled out with this underlay.

Format: Folding mat 12,500 × 1,200 × 2 mm; 15 m²

Silenzio Duo

EGGER Silenzio Duo is ideally suited for the floating installation of laminate flooring on mineral subfloors. Thanks to its extreme pressure stability, it gives the installed flooring lasting protection and stability. It can be installed directly on mineral subfloors thanks to the integrated vapour barrier film with adhesive strips. Given its low heat conductivity, it also enables efficient use of underfloor heating.

Format: Folding mat 8,500 × 1,180 × 1.5 mm; 10 m²

Silenzio Professional SD 3-in-1

EGGER Silenzio Professional SD 3-in-1 is ideally suited for the floating installation of laminate flooring on mineral subfloors. It can be installed and fixed directly on mineral subfloors thanks to the integrated vapour barrier film with adhesive strips. It provides effective protection against rising humidity, offers protection and stability to the installed floor, enables efficient use of underfloor heating thanks to its low heat conductivity and significantly reduces impact and room noise.

Format: Roll 8,000 × 1,000 × 1,8 mm; 8 m²

Alu Flex

This high-quality vapour barrier for laminate flooring provides effective protection against rising humidity. The vapour barrier film is ideal for floating installation of laminate and hybrid flooring. It can be installed directly on mineral subfloors (e.g. screed, concrete). The low heat conductivity enables efficient use of underfloor heating and saves energy.

Format: Roll 26,000 × 1,000 × 0,2 mm; 26 m²

You can find out which underlay you need for your new laminate or hybrid flooring from the following table.

All our Silenzio underlays fulfil the increased requirements of the EPLF and MMFA WOOD

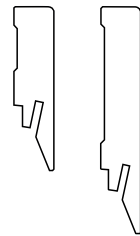

Skirting boards

Choosing the right skirting board is crucial for a harmonious room appearance. Skirting boards not only ensure a seamless transition between the floor and wall by covering the expansion joint, but also protect the wall from knocks and dirt. Our extensive range includes classic white and modern decorative skirting boards that are part of our EGGER Perfect Finish System. All products in our EGGER Perfect Finish System are perfectly colour-coordinated.

Decor skirting board 6 cm and 8 cm cubic

The modern EGGER CUBICAL decorative skirting boards are available at a height of either 6 or 8 cm. Their cubic design gives them a contemporary appearance. The colour-coordinated decorative film harmonises perfectly with our floor decors. These skirting boards are made of high-quality, laminated MDF and have a clip groove on the back for easy

installation with the EGGER Clipholder mounting system. Alternatively, they can also be fitted using adhesive, bolts or nails.

Dimensions: 2,400 × 14 × 58 mm
2,400 × 14 × 80 mm

Clipholder – mounting clip for 6 cm and 8 cm skirting boards

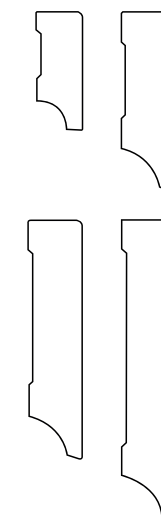

The EGGER Clipholder mounting clip enables uncomplicated and clean mounting of skirting boards. The skirting boards are simply clipped on, creating a clean and aesthetic wall finish without visible bolt or nail heads.

Connecting and end elements for 6 cm decorative skirting board

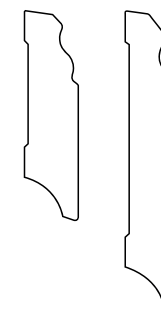

For effortless installation without mitre cuts, we offer connecting and end elements in various decors for the 6 cm decorative skirting board. Our corner and connecting elements, which are visually matched to the skirting board decor, ensure optimum ends and transitions between the skirtings.

White cubic skirting boards

The white cubic skirting boards with 4, 6, 8 or 10 cm plinth height create a modern and clean wall finish. The linear and minimalist design can be combined with all floor decors. The skirting can be painted with solvent-free paints and is made of robust MDF and a white primer film. Annoying cables can be easily concealed in the integrated trunking.

Dimensions:
2,400 × 16 × 40 mm, 2,400 × 18 × 60 mm,
2,400 × 18 × 80 mm, 2,400 × 18 × 100 mm

White Hamburger skirting boards

The Hamburger skirting boards with a choice of 7 and 10 cm plinth height create an elegant wall finish. Their classic curved design is an eye-catcher in prestigious rooms. White skirting boards act as a discreet frame, setting the floor off from the wall and enhancing its effect. The skirtings can be painted and are made of robust MDF with a white primer film. Annoying cables can be easily concealed in the integrated trunking.

Dimensions:
2,400 × 18 × 70 mm, 2,400 × 18 × 100 mm

Beading profiles

Our beading profiles are perfectly colour-coordinated with our flooring decors and ensure a harmonious installation pattern. The minimalist skirtings consist of an MDF core and a water-repellent decorative film and can be easily attached with mounting adhesive or by nailing.

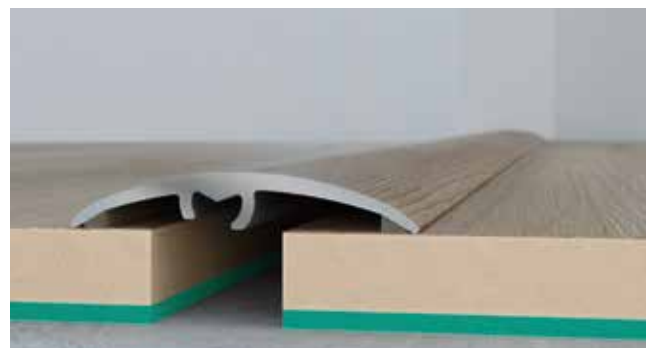

Dimensions:
2,400 × 16 × 16 mm

Aluminium profiles

Suitable aluminium profiles are essential for connecting height differences and door transitions between two floor coverings. These are available in the classic silver anodised version as a transition, levelling or end profile, or as a multifunctional 3-in-1 aluminium profile with decorative foil. Like all products in our EGGER Perfect Finish System, our 3-in-1 aluminium profiles are perfectly colour-coordinated with our flooring decors.

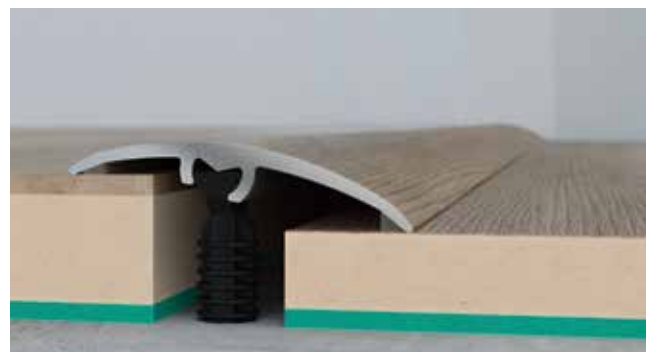

EGGER 3-in-1 aluminium profile decor

Our 3-in-1 aluminium profile strips for floating floors with a thickness of 6.5 to 16 mm offer a 3-in-1 function: They level out unevenness, cover transitions and serve as a finish. These skirtings match the decor of our flooring items, creating a harmonious overall look. With abrasion class AC3, they are hard-wearing and can be installed quickly and easily thanks to the supplied knock-in dowels and adhesive strips.

Format: 1,860 × 37 × 5 mm

Anodised aluminium profiles

Aluminium transition profile

With the silver anodised EGGER aluminium transition profile, the transitions between two floor coverings, e.g. in doorways, are designed to be visually appealing and clean. The transition profile offers the optimal solution for floors with a thickness of 6.5 to 16 mm. Including fastening rail and fastening material.

Formats: 1,000 × 34 × 6.5-16 mm
2,700 × 34 × 6.5-16 mm

Aluminium levelling profile

With the silver anodised EGGER aluminium levelling profile, height differences between two floor coverings can be made visually appealing and clean. The levelling profile offers the optimal solution for floors with a thickness of 6.5 to 16 mm. Including fastening rail and fastening material.

Formats: 1,000 × 44 × 6.5-16 mm
2,700 × 44 × 6.5-16 mm

Aluminium border profile

The silver anodised EGGER aluminium end profile provides a visually appealing and clean finish to walls and doors. The end profile offers the optimal solution for floors with a thickness of 6.5 to 16 mm. Including fastening rail and fastening material.

Formats: 1,000 × 21 × 6.5-16 mm
2,700 × 21 × 6.5-16 mm

Installation

Our installation tools

Discover our range of high-quality flooring installation accessories to help you professionally install your new EGGER flooring. From installation kits to special tools, we offer everything you need for precise and efficient installation.

Care and repair

Our cleaning and repair tools

In our range of accessories, we offer suitable products for cleaning your laminate and hybrid flooring. Minor damage can be easily repaired with a repair kit. This will keep your floor beautiful and well-maintained for a long time.

Installation kit for floors with CLIC it profile!

The EGGER installation set is specially designed for the installation of EGGER laminate and hybrid flooring with the EGGER CLIC it! locking system. It contains a metal pull bar that makes it easy to install the flooring boards even in hard-to-reach places. In addition, 20 spacer wedges are included to ensure the correct distance from the wall. The tapping block made of 100 % solid beech makes it easier to hammer in the flooring boards thanks to its self-holding function.

Tapping block for all floors in herringbone format with uni-zip joint

Our special tapping block was developed specifically for installing EGGER NatureSense Herringbone laminate flooring. It is made from durable recycled plastic and ensures simple, quick and safe installation. Thanks to its self-holding function, it enables precise installation.

Alu Tape

The self-adhesive aluminium tape is ideal for vapour-tight taping of butt joints in vapour barrier films and insulation underlays. It ensures reliable sealing in the wall finish area and can also be used to fix insulation underlays.

Format: 0.5 cm x 50 m

Clean-It floor cleaner

The floor cleaner was specially developed for cleaning EGGER laminate and hybrid floors. It ensures excellent dirt absorption and has an antistatic effect. The floor is clean and streak-free, and also dries quickly. One 1 litre bottle of cleaner concentrate is sufficient for approximately 20 cleans.

Decor Mix and Fill

The Decor Mix and Fill repair set is available for the simple and uncomplicated repair of laminate and hybrid flooring. This set makes it easy to repair small dents and scratches. The colour of the repair compound can be individually matched to the floor colour. The set consists of a filling paste and colour pigments for ideal colour matching. A colour template helps to determine the correct mixing ratio.

EGGER Perfect Finish System

One decor – multiple options for a perfect finish

One decor – multiple options for a perfect finish. With the EGGER Perfect Finish System, you have the opportunity to give your rooms a harmonious overall appearance. Our decorative skirting boards, beading profiles and the 3-in-1 aluminium profiles are perfectly colour-coordinated with each other and with our flooring decors. Thanks to uniform coding, you can recognise at first glance which elements go together.
